

Tutorial Instructions

1. Clone the repo and access the tutorial folder (this folder!)
2. Get a GooglePaLM API key from [here](#).
3. Paste your shiny new key inside the .ipynb files where it says 'YOUR-GOOGLEPALM-API-KEY-HERE'. (Hint: You can use Jupyter Notebook, VSCode or any other application of your choice to view, edit and run .ipynb files).
4. Run all cells of the program, and interact with the menu to see what it can do.
5. Have fun!
